

POLAR 10 & 12 MK2

GOOD BETTER BASS

You want more low bass and even more sound pressure on the dance floor? Upgrade your POLAR MK2 setup with the PORTABLE SUB 115 A or PORTABLE SUB 118 A and get the party started!

Setup:

Set up POLAR MK2 as a stereo system and place a PORTABLE SUB 115 A or a PORTABLE SUB 118 A between the POLAR MK2 system.

Recommended settings for a stereo setup of POLAR 10 MK2 or POLAR 12 MK2 with a PORTABLE SUB. With this setting, the system plays very balanced and at the same volume. For even more bass emphasis, just raise the volume of the PORTABLE SUB.

Settings:

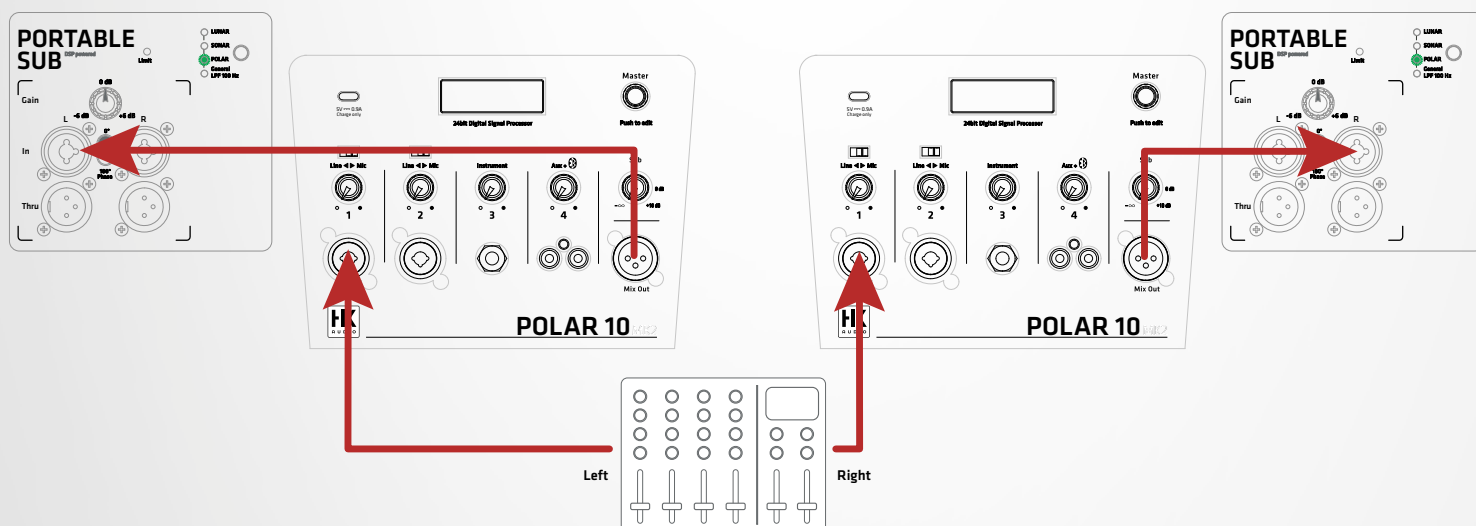

POLAR 10/12 MK2:

Preset Music, Master 0 dB, CH1 Line, same Gain setting for the POLAR MK2 systems, Sub Level 0 dB, Low EQ -3 dB

PORTABLE SUB:

Preset: POLAR, Volume: Centerclick 0 dB, Phase: 0°

Sub extension for POLAR 10 MK2 & POLAR 12 MK2 with two PORTABLE SUB 115 A or two PORTABLE SUB 118 A

Setup:

Set up the POLAR MK2 as a stereo system and place one PORTABLE SUB 115 A or a PORTABLE SUB 118 A on each side of the POLAR MK2 system so that they are flush with it.

Recommended settings for a stereo setup consisting of POLAR 10 MK2 or POLAR 12 MK2 with two PORTABLE SUBs. With this setup, the system delivers a very balanced sound at a consistent volume. To emphasize the bass even more, you can, of course, increase the volume of the PORTABLE SUB.

Settings:

POLAR 10/12 MK2:

Preset Music, Master 0 dB, CH1 Line, same Gain setting for the POLAR MK2 systems, Sub Level 0 dB, Low EQ -3 dB

PORTABLE SUB:

Preset: POLAR, Volume: Centerclick 0 dB, Phase: 0°
